The Pennsylvania Department of Education, an equal opportunity employer, will not discriminate in employment, educational programs or activities, based on race, sex, handicap, or because a person is a disabled veteran or a veteran of the Vietnam Era. This policy of non-discrimination extends to all other legally protected classifications. Publication of this policy in this document is in accordance with state and federal laws including Title IX of the Education Amendments of 1972 and Sections 503 and 504 of the Rehabilitation Act of 1973. Inquiries should be directed to Susan Mitchell, Affirmative Action Officer, 503/504 Coordinator and Title IX Coordinator, Education Building, 333 Market Street, P.O. Box 911, Harrisburg, PA 17108 (717-787-1953).

TABLE OF CONTENTS

INTRODUCTION	i
PART I (Tables 1, 2, 3 and 4)	1
Analysis of Resources and Services (Tables 1 and 2) and Analysis of Income and Expenditures (Tables 3 and 4), alphabetically by county	
PART II (Tables 1, 2, 3 and 4)	57
District Summaries: Analysis of Resources and Services (Tables 1 and 2) and Analysis of Income and Expenditures (Tables 3 and 4)	
PART III (Graphs 1 and 2)	61
Public library income by source (Graph 1) and public library expenditures by source (Graph 2)	
PART IV (Tables 1 and 2)	63
Ranking of public libraries according to operating expenditures during 1982. Ranked from highest to lowest.	
PART V (Graphs 1 and 2)	83
Circulation 1977 - 1983 (Graph 1) and Interlibrary loans 1977 - 1983 (Graph 2)	
PART VI (Tables 1, 2 and 3)	85
Table 1: Ranking of public libraries according to population served. Ranked from highest to lowest.	
Table 2: Ranking of public libraries according to materials collection. Ranked from highest to lowest.	
Table 3: Ranking of public libraries according to circulation. Ranked from highest to lowest.	
PART VII	98
District Summary Input List. A list of libraries for which data is included in this publication. Arrangement is alphabetically by name of district. Sub-arrangement is by county and municipality in which each library is located. The list includes the library's code number and name.	
PART VIII	109
Statistics for the State Library of Pennsylvania 1981-82 and 1982-83	
PART IX	110
State Summary of Pennsylvania Public Library Statistics. Data for 1981 is compared to data for 1982.	

DISTRICT LIBRARY CENTERS Public Library System

● Denotes supplementary or partial district library center service.

PENNSYLVANIA PUBLIC LIBRARY STATISTICS

INTRODUCTION

The statistical report was compiled by the Division of Systems Development, Bureau of Information Systems, Pennsylvania Department of Education, from data selected from public library annual reports by the Library Development Division, State Library of PA. It is divided into seven parts, each of which is subdivided into two or more tables.

PART I is arranged alphabetically by county and, within each county, by the name of the town, township, borough or city in which a library is situated. The responsibility of some libraries is identified in parentheses following the name of the municipality, e.g., COUNTY = County Library, CITY = City Library, DLC = District Library Center.

The pound symbol (#) before a library indicates it is a member of a library system. A date in parentheses after a library indicates the year of the most recent information.

PART II, District Summaries, reports the total data for all libraries in each district.

PARTS III and IV show how local libraries rank according to operating expenditures, population served, number of items in the materials collection, and items lent (circulation) during the year. The increase and decrease percentages were determined by a computer comparing this year's to last year's data. An unusually large change indicates a special circumstance in one of the two years.

PART V is the list of libraries for which data is included in the statistics. It is a useful source of library code numbers.

For libraries which operate on a July-June fiscal year, the statistics are for 1982-83. The data for most other libraries is for 1982 except for a few for which earlier data has been repeated because they did not file reports this year. The repeated data is more valid than no data.

TABLE 1: ANALYSIS OF RESOURCES AND SERVICES

Population served: For a local library it is the 1982 population of the municipalities served freely. For members of library systems, it is the population which has predominant access to the library. In counties where overlapping service areas result in a total population served which is greater than the census figure, the county population from the *Local Effort and State Aid Projections*, compiled annually by the State Library, has been used as the county total. The population served by a county library generally is the difference between the total population of the county and the population served by the other libraries in the county.

Hours open: The figure is the predominant weekly schedule of the library, usually winter hours.

Registration: The two columns record the number of new borrowers registered to use the library during the year and the total as of the end of the year.

Staff: The number are full-time equivalents based on at least a 35-hour work week. The employees are classified by education or certification. The other category includes clerical people and others who do library work. Janitorial and maintenance employees are not included.

Volunteers: The data for volunteers should be reported in full-time equivalents, counting only those who regularly work five or more hours weekly. However, for some libraries the data continues to be the number of individual volunteers.

Books: The figures show the total number of items in the library's material collection, including those of branches, bookmobiles and other outlets.

Periodicals: For individual libraries, generally the figure is the total number of titles, including newspapers, currently received by the library. In some cases, it may be the number of subscriptions.

Circulation: Reported are the total of books and other materials lent by the library during the year and the number of items per capita.

Interloans: The figures show the number of items of materials lent and borrowed by each library.

TABLE 2: ANALYSIS OF INCOME AND EXPENDITURES

INCOME

Local tax: Total tax income or appropriations from local government units and school districts. Also included is indirect federal aid. See below.

State aid: State aid received by a local library, county library, district center, and regional library center. Included are state funds received by the Carnegie Library of Pittsburgh and the Free Library of Philadelphia to operate libraries for blind and physically handicapped persons.

Federal aid: Money received under the Library Services and Construction Act and similar federal programs, excluding revenue sharing money.

Other: Funds received from all other sources such as endowments, United Fund, fund drives, gifts, fines, fees, and so on.

School districts: Receipts from school districts are reported under this heading and also are included under the heading of *Local Tax*.

Indirect Federal aid: Money not specifically intended for libraries received indirectly from federal programs through municipal governments or other agencies. Included are revenue sharing funds and the salaries of CETA employees assigned to the library. These amounts also are included under the heading of *Local Tax*.

EXPENDITURES

Wages and salaries: Wages, salaries and fringe benefits, including janitorial and maintenance staff.

Books and periodicals: The amount spent for books, periodicals and other library materials.

Other operating: Monies spent for utilities, rent, supplies and other miscellaneous purposes. The figure includes some expenditure for furniture, equipment, repairs and alterations.

Total operating: The sum of the previous three columns. All figures are recorded to the nearest dollar.

Operating per capita: The figure is based on the recorded operating expenditures.

Capital: It is supposed to be monies expended for land, new buildings, alterations or new additions which add new floor area, and for the initial furniture and equipment for the new area.

Operating expenditures by source of income: The three columns report the total funds spent from the local, state and federal income categories. Federal includes only Library Services and Construction Act and similar library program money. It does not include "indirect federal aid".

* NOTE: The number of volunteers used by libraries during 1981 and 1982, are not comparable to the 1975 figures, because these figures are equivalent to people working 35 hours weekly. Only those people working five or more hours weekly, regularly, were reported. The 1975 figures report the number of individual volunteers, not full-time equivalents, and with no limit on the number of hours worked.
